

K-Love has been so great for my roommate in me. The station serves me by getting my focus back on God while enjoying great music. If KLOVE were replaced by LPFM, many people in my community will not have the opportunity to hear the personal testimonies that affect their lives. I would be caused to listen to secular music or none at all. I think KLOVE is in the public interest because so many people that I know here in Dayton listen to KLOVE and we talk about the songs and happenings on that we hear on KLOVE.
